GUILLOUME

Emphasizing silhouette and spherical forms, Guilloume sculpts figurative works with stylized, sleek forms and vivid patinas. Describing his work as being in the *Bolismo* style (the artist's translation of balls), the rounded profiles of the people he creates suggest narrative in subtle, aesthetic ways, with clustered figures posed in harmonious compositions. The Colombian-born artist now calls New Mexico home. His bronze sculptures and paintings have become a coveted part of Santa Fe's Contemporary Hispanic Market, where he is now showing for his 23rd year. Pippin Contemporary is hosting an exhibit of Guilloume's latest series of bronze sculptures and wall reliefs during this time.—*SL*

Guilloume's Contemporary Hispanic Market Preview, *July 26–August 8, reception July 28, 5–7 PM, Pippin Contemporary, pippincontemporary.com*
